## 1NCA Smart Cable Free

An unlimited access control system.

These innovative readers Cable Free readers should be paired via Bluetooth® Low Energy 5.1 with the ISEO product of Smart Connected range to extend its opening possibilities, enhancing access credentials with numeric codes, RFID, or fingerprint scanning, depending on the model.

Powered by batteries, these wireless devices require no wiring and offer easy wall installation.

## Multiblindo Smart

Connectivity and monitoring.

ISEO's new motorized and self-locking lock is the perfect combination of ease of use and security in all situations. The sensors integrated into the lock provide constant monitoring of access and the door's status, which can be viewed on smartphones and tablets.

## ARGO App

Control smart devices of ISEO with the ARGO app.

Manage access to your spaces intuitively and securely, monitor activities in real time, and simplify permission management. With ARGO, you have total control by your side, wherever you are. Download it now and discover the future of security.

## Cybersecurity

ARGO is a reliable solution for access system security.

Cybersecurity in residential access control is crucial to ensure the safety of modern homes. For ISEO, security is very important. ISEO implements proven techniques based on industry best practices and derived from existing encryption and network security technologies. Thanks to direct connectivity to the locks and end-to-end encryption, without an intermediate server (the Cloud is only used as a bridge), Argo ensures both local and remote connections with the same level of security. Locally, the app connects to the opening device directly via Bluetooth® Low Energy 5.1, ensuring maximum security with encryption techniques based on:

- Crypto AES 128.
- Session keys generated with ECDH (Elliptic-curve Diffie–Hellman).
- Random Number Generator according to NIST (National Institute of Standards and Technology) specifications.

## Sustainability

In ISEO's ARGO access control sustainability is a priority.

By implementing efficient energy solutions and recyclable materials, ARGO reduces its environmental impact. In addition, wireless installation and keyless operation ensure less use of materials that are not easily recyclable, such as metal keys and cables. ARGO represents a sustainable option for access security without compromising the environment.

Libra Smart electronic modular cylinder with  
RFID/Bluetooth reader and Standard mechanical knob.

## Argo system architecture

ISEO's cloud-connected wireless access control system is an advanced and versatile solution for managing doors and other types of access points, all facilitated by the absence of cabling thanks to the devices' on-board batteries and low energy technology. Thanks to cloud integration, the system offers secure and reliable connectivity, allowing real-time access to data and configurations. The system's scalability allows it to adapt to evolving needs, efficiently managing both small environments and larger buildings.

**Up to 300 users per device**

**Unlimited number of devices and gateways per system**

## Success Stories

### LAKE VILLA

Residential building, Henan, China

Residents of Lake Villa flats can open the doors of their homes in various ways: with their smartphone, a physical key or other credentials.

## The smart handle for many applications

MA1A Smart is the new electronic lock of the ISEO Connected products range which allows to manage the access with simplicity in residential, "light commercial" environments, B&B. MA1A with its compact and stylish design is an excellence of Made in Italy and represents the perfect retrofit solution for internal doors.

## Make your doors connected

MA1A Smart can be opened through Argo the smartphone app conceived for iOS and Android device, with which the user can manage, monitor and open all the doors upon which MA1A has been installed - RFID cards, tags, key fob.

The installation of the smart handle is quickly and effortlessly, is easy to use and it is compatible with all DIN mechanical locks.

## Product's functions

- Memorize up to 300 users credentials
- Records the last 1000 events
- Battery-operated device with charge status detection
- Wake up by RFID card detection or phone Bluetooth® (patented)
- Low energy consumption device
- Real Time Clock/Calendar
- Light and acoustic signals
- Permanently open mode (office mode) without no extra battery consumption
- Block the Standard Users allowing access only to VIP users
- Programming and software updates by Argo app on iOS and Android devices

## Selection guide

The MA1A electronic handle is available with different handle sets.

The items required to adapt the different door types and to ensure correct installation are various and must be chosen from the options available according to the characteristics and the dimensions of the door and the specific usage requirements.

To ensure the correctness and completeness of the order below is a guide for the selection of the various articles that make up the set for each door.

### ORDER THE PRODUCT IN A FEW STEPS

**1**

Check the type of door on which the MA1A Connected Smart Handle will be mounted.

**2**

Choose the handle set you prefer.

**3**

Compose the necessary spindle and screws kit.

**4**

Optional.  
Choose lock to match.

## MA1A Smart Standard

CONNECTED SMART HANDLE WITH RFID  
TECHNOLOGY AND BLUETOOTH®

### Technical features

#### FIRMWARE

ARGO

#### POWER UNIT

3 alkaline batteries 1.5V type AAA

#### ESTIMATED BATTERY LIFE

Up to 2 years, up to 20.000 opening. The figure is dependent on the mode and environment of use and the options activated.

#### ALERTS

- Led 3-colour series green, red, blue
- Multi-frequency buzzer

#### PRODUCT COMPATIBILITY

- Backset min 35 mm (E)
- Escutcheon max diameter = 52mm (C)
- Min center-holes distance = 70mm (D)
- DIN holes = 38mm (DIN)
- Multiblindo Easy Exit Lateral compatible version (M)
- Max handle rotation angle 40°
- 7, 8 or 9 mm square spindle (\*)
- Recommended locks with latchbolt only or automatic deadbolt function
- Max door mass and dimensions 250 Kg, 1320 x 2520 mm (W x H)
- Door thickness 40 - 125 mm

(\*) 8mm square spindle required with MA1A handles provided by ISEO. 7 and 9mm square spindle compatible to MA1A available (go to Aries screws and handle follower kit).  
Compatible to all European DIN locks

#### MOUNTING

- On door

#### ENVIRONMENTAL FEATURES

- IP54
- H.R. max. 95% without condensing

#### WORKING TEMPERATURE

-20°C ÷ +60°C

#### STORAGE TEMPERATURE

-20°C ÷ +70°C

#### PACKAGE

MA1A smart handle, 3x AAA 1,5Vdc alcaline batteries, torx key T8, anti-tilt kit.

#### ACCESSORIES (NOT INCLUDED)

- Handle Set (standard and with Safe-Touch antibacterial protection)
- Spindle and screws kit

code 00E40201555

#### SPINDLE AND SCREWS KIT

Spindle and screws length related to door thickness (A)  
 Package includes: 1 square spindle, 2 M5 fixing screws with thread-locking.  
 NOTE: select the right kit depending on door thickness.

##### 8 mm square spindle \* and 2xM5 screws kit

Door thickness from 40 to 50 mm	1	201E004050A
Door thickness from 50 to 60 mm	1	201E005060A
Door thickness from 60 to 70 mm	1	201E006070A
Door thickness from 70 to 80 mm	1	201E007080A
Door thickness from 80 to max 125 mm (to be cut)	1	201E008010A

\* For 7 and 9mm square spindles, refer to Aries screws and handle follower kit chapter.

## MA1A Smart

### Accessories

#### LOCK CAN BE COMBINED

##### PANIC FIRE-RATED SELF-LOCKING LOCK

Panic self-locking lock for fire-resistant doors.

When the leaf is approached, the deadbolt of the lock is automatically engaged.

##### Internal operation:

The key operates the external handle (function B) and retracts the latch and deadbolt (only with function E).

The panic bar and/or emergency handle always retract the latch and deadbolt.

##### External operation:

The key enables/disables the handle that recalls the latch and deadbolt (function B).

72 mm center distance. 9 mm sintered steel handle follower set with 30° rotation.

Self-locking 20mm deadbolt.

Zinc plated front plate (stainless steel option) with round edges (square edges option) 24x3 mm (20x3 mm option). NK sintered steel latch.

Compatible with Euro profile cylinder, with DIN cam to be ordered separately.

PANIC FUNCTION	FRONT PLATE SHAPE AND DIMENSIONS	BACKSET	HAND	FINISH	LATCH TYPE
2 D	1	A			
Function B B	Automatic				
Function E E	24x3 Round 1	55 = 55 mm	1 Right	3 Pull (reversed)*	
	* 20x3 Round 2	60 = 60 mm	2 Left	4 Standard	
	* 24x3 Square 3	65 = 65 mm		2 Stainless steel *	
	* 20x3 Square 4	80 = 80 mm		4 Zinc plated	
		10 = 100 mm

## Selection guide

1NCA Smart readers are ISEO's new credential readers characterised by an elegant and contemporary design suitable for outdoor installation (IP66). They are available in various models to meet different installation and functional requirements.

### ORDER THE PRODUCT IN A FEW STEPS

1

Choose the 1NCA Connected Smart Reader model suitable for your application and click in the column on the right :

**Mullion Relay and  
Mullion Keyboard Relay**  
Devices with onboard relays  
for operating directly  
on electromechanical gates.

**Mullion Lockbus and  
Mullion Keyboard Lockbus**  
Lockbus devices for operating  
electromechanical gates in combination  
with the Actuator for electromechanical  
locks. Suitable for replacing  
the ISEO's Stylos Smart reader.

**Standard and Mullion 485**  
RS485 devices for operating  
doors with ISEO  
Multiblindo SMART locks  
(PWW and PWW+R configurations).

**Cable Free RFID, Keyboard  
and Finger**  
Battery-powered devices that  
can be paired via Bluetooth to any ISEO  
Connected Smart device  
(Libra LE60, Aries, MA1A, Relay...), in order  
to increase their usable credentials.

## 1NCA Smart Standard RFID

CREDENTIAL READER RFID/BLUETOOTH®,  
WITH RS485 CONNECTION

### Technical features

#### FIRMWARE

ARGO

#### POWER UNIT

9÷24 Vdc - Max power consumption = 1W

#### ESTIMATED BATTERY LIFE

Up to 2 years, up to 20.000 opening.

The figure is dependent on the mode and environment of use and the options activated.

#### ALERTS

- Led 3-colour series green, red, blue
- Multi-frequency buzzer

#### PRODUCT COMPATIBILITY

- Can be used in combination with ISEO devices with RS485 interface.

#### MOUNTING

- Wall mounted

#### ENVIRONMENTAL FEATURES

- IP66
- H.R. max. 95% without condensing

#### WORKING TEMPERATURE

-20°C ÷ +60°C

#### STORAGE TEMPERATURE

-20°C ÷ +70°C

#### PACKAGE

1 1NCA reader, 1 fixing bracket, Torx T8 key, 1 x Fixing bracket Torx screw (M2,5x5), instruction manual, 2 x Screws (3,5x25 countersunk head) and wall plugs (5x25)

#### ACCESSORIES (NOT INCLUDED)

- Spacer with screws (cod. 00001S00355)
- Power supply 24Vdc 1.5 A power supply (cod. 5E3506)

code **5E1512155**

# Aries Smart 2.1

## Make your door Smart

The installation flexibility and simplicity make it the perfect solution for community and residential access control (shopping malls, industries, public and private offices, schools and universities, hospitals and retired hostels, residences and hotels, etc.).

## For many applications

ARIES electronic trim set can be fit on most doors. It is conceived to be used also with the majority of mechanical locks, for the utmost installation flexibility.

The battery operation and cableless technology makes ARIES the perfect solution for access management, ensuring utmost flexibility and low installation costs both on new and existing doors.

## FINISH

### ENVIRONMENTAL CHARACTERISTICS

- IP54
- IP55 with resistance to salty atmosphere

### CREDENTIALS

- Badge
- Keyfob
- Bracelet
- Smartphone
- Apple Watch

### COMMUNICATION INTERFACE

- RFID ISO14443B/Mifare ISO14443A
- Bluetooth® Low Energy 5.1

### CERTIFICATIONS

- EN179 certification available in combination with specific locks
- EN1125 certification available in combination with specific panic devices and locks

## Selection guide

The ARIES electronic handle is available in different versions to suit the customers' needs and the characteristics of the doors on which it is to be installed. The articles required for correct installation are various and must be chosen from the options available both according to the characteristics and dimensions of the door and to the specific usage requirements.

To ensure the correctness and completeness of the order, below is a guide for choosing the various articles that make up the set for each door.

## ORDER THE PRODUCT IN A FEW STEPS

1

Check the type and dimensions of the door  
(in case of handle replacement on existing door)

2

Choose the Aries Smart handle's model  
in the right column, generating the code  
thanks to the configurator on the product page

3

Compose the necessary spindle and  
screws kit and check whether an adapter  
plate kit is required (for panic devices  
and DIN locks).

[Choose from menu](#)

[Spindle and screws kit](#)

[Adapter plate kit](#)

[Other accessories](#)

4

Optional.  
Choose a lock to match  
from those available.

### Accessories

#### LOCK CAN BE COMBINED (3/3)

##### PANIC FIRE-RATED SELF-LOCKING LOCK

Panic self-locking lock for fire-resistant doors.

When the leaf is approached, the deadbolt of the lock is automatically engaged.

##### Internal operation:

The key operates the external handle (function B) and retracts the latch and deadbolt (only with function E).

The panic bar and/or emergency handle always retract the latch and deadbolt.

##### External operation:

The key enables/disables the handle that recalls the latch and deadbolt (function B).

72 mm center distance. 9 mm sintered steel handle follower set with 30° rotation.

Self-locking 20mm deadbolt.

Zinc plated front plate (stainless steel option) with round edges (square edges option) 24x3 mm (20x3 mm option). NK sintered steel latch.

Compatible with Euro profile cylinder, with DIN cam to be ordered separately.

PANIC FUNCTION	FRONT PLATE SHAPE AND DIMENSIONS	BACKSET	HAND	FINISH	LATCH TYPE
2 D	1	A			
Function B B	24x3 Round 1	55 = 55 mm	1 Right		3 Pull (reversed)*

# Smart Locker 2.0

## For office, gym, swimming pool

Smart Locker can be installed on a wide range of cabinets and lockers in order to keep people's property safe while they're in the office, the gym, swimming pool, or any other situation where personal belongings need to be temporarily safeguarded.

## Automatic locking

By closing the door of the cabinet, Smart Locker will automatically lock. The Smart Lockes is battery powered allowing easy installation in new lockers or retrofit in existing lockers currently operated by keys.

## Product's functions

- Automatic locking just pulling the door ajar
- Memorize up to 300 users credentials
- Records the last 1000 events
- Battery-operated device with charge status detection
- Wake up by RFID card detection or phone Bluetooth® (patented)
- Low energy consumption device
- Real Time Clock/Calendar
- Light and acoustic signals
- Permanently open mode (office mode) without no extra battery consumption
- Block the Standard Users allowing access only to VIP users
- Programming and software updates by Argo app on iOS and Android devices

# Libra LE60 Smart 2.1

## Suitable for various applications

Thanks to the quick and easy installation, the electronic modular cylinder LIBRA is the ideal and universal solution both for the replacement of mechanical European profile cylinders and for installation on new doors.

## Simple to install

It is battery operated, so it doesn't require any electrical external cabling. The result is the best flexibility and cost effectiveness of installation, both in new doors and in retrofitting.

## Selection guide

The LIBRA electronic modular cylinder represents the ideal and universal solution for access control both for retrofit installations to replace of mechanical European profile cylinders (in addition to the Australian and Scandinavian oval cylinder versions), and for installations on new doors.

### ORDER THE PRODUCT IN A FEW STEPS

**1**

Check the door type  
and the dimensions of the cylinder  
(in the case of replacement on an existing door).

**2**

Choose the Libra Smart model  
in the column on the right, generating  
the code thanks to the configurator on the  
product page.

**3**

**Optional.**  
See accessory sheets for modifications  
and component replacements.

# Smart Relay 2.0

[Go to page](#)

## Make your access points smart

The Smart Relay allows to open electric locks, motorized gate or any electrical actuator which can be activated closing a contact.

## Concealed installation

The Smart Relay device can have an integrated or external Bluetooth® antenna, in order to install the device even in unconventional installation spaces: the antenna can be installed in another point and connected to the device.

## Product's functions

- REX (REquest to eXit) is and Opto-insulated input to open the relay with a button distant up to 100 meters.
- The OUTPUT relay is a signal relay (1A) and can be also configured as NO (default) or NC by a jumper under the cover enclosure. It can be configured with the Argo App for different functions.
- Memorize up to 300 users credentials
- Records the last 1000 events
- Wake up by RFID card detection or phone Bluetooth® (patented)
- Block the Standard Users allowing access only to VIP users
- Programming and software updates by Argo app on iOS and Android devices

## MODELS

- Built in Bluetooth® p. 79
- External Bluetooth® (max 3 meters) p. 80

ENVIRONMENTAL CHARACTERISTICS

COMMUNICATION INTERFACE  
- Bluetooth® Low Energy 5.1

# Smart Relay 2.0

## Selection guide

Smart Relay controls electric locks, motorised gates or any electrical actuator that can be activated by closing a contact. The Smart Relay closes a contact if a smartphone has been registered on the device. Smart Relay is available in two versions, which adapt to different installation requirements.

### ORDER THE PRODUCT IN A FEW STEPS

1

Choose the appropriate template for your application and click in the column on the right:

#### Smart Relay with integrated Bluetooth® antenna

Device used for installations where there are no range problems of the Bluetooth® signal (approx. 10 m between smartphone and Smart Relay).

#### Smart Relay with external Bluetooth® antenna

To be used in case it is necessary to remote the Bluetooth® antenna from the installation of the Smart Relay. The length of the cable supplied for the external antenna is 3 m.

## Choose the configuration that best suits your needs

The new ISEO self-closing motorized lock is the perfect combination of comfort of use and safety in all situations. The great innovation of Multiblindo Smart is the possibility of choosing between different configurations, completely battery powered or mains powered, with or without backup battery, to be used in the event of an electrical blackout.

## Open as you like

The installation of Multiblindo Smart locks is recommended to protect entrances of homes, offices, commercial spaces and bed & breakfasts. In combination with the new ones 1NCA readers and using your smartphone, manage access to your spaces intuitively and secure, monitoring activities in real time and simplifying permission management. The sensors on board the lock guarantee constant monitoring of access and of the door status, visible on smartphones and tablets.

## Selection guide

Multiblindo Smart features a modular design to suit various installation needs. This catalog allows you to select the desired configuration for the lock, define the necessary components, and check the connections.

### ORDER THE PRODUCT IN A FEW STEPS

**1**

Check the type of application and the available installation spaces, particularly assessing whether it is possible to run a power cable to the door.

**2**

Choose the desired configuration and lock model in the right column, generating the code using the configurator on the product page.

**3**

**Optional.**  
Refer to the accessory sheets for component modifications and replacements.

**4**

Choose the suitable 1NCA Smart reader model for your application.  
**Note:** Verify the compatibility of the reader with the desired Multiblindo Smart configuration.

**Choose from menu**

## Multiblindo Smart

MOTORIZED SELF-LOCKING MULTI-POINT LOCK,  
WITH A HIGH LEVEL OF SECURITY, SUITABLE FOR  
METAL FRAME DOORS MULTIPLE LOCKING POINTS,  
TO BE COMBINED WITH CONNECTION BOX

 Code configurator

 Accessories

### DIMENSIONS

Lock length 2300 mm, center distance 92 mm.  
Lock and deviators deadbolts 27 mm throw.  
Connection cable length 6m (not included).

### Technical features

#### FIRMWARE

ARGO

#### POWER UNIT

Configurable power:

- 24Vdc mains power supply
- 24Vdc mains power supply and backup battery on the door (which guarantees the use of the access even if the main power supply is interrupted)
- Battery powered (no cable needed for main power)

#### HARDWARE SPECIFICATIONS

- Electromechanical 24vdc multipoint mortice lock for metal frames, self-locking latchbolt and 3 deadbolts, rotating hook deviators and pin. Deadbolts and latchbolt operated by key, handle or motor. Lock and deviators deadbolts with anti-drill and anti-cut cover plates in hardened steel. Adapter for 8 mm square handle, 2 nylon end blocks for U-version.

#### ALERTS

- Multi-frequency buzzer

#### PRODUCT COMPATIBILITY

- The addition of the 1NCA Smart Cable Free or 1NCA Smart Standard readers allows entry with different electronic credentials, configuration, validity and times. Up to 300 credentials in total can be combined with the lock.
- For metal frame doors with multiple locking points.
- European profile cylinder.

#### MOUNTING

- On door

#### ENVIRONMENTAL FEATURES

- H.R. max. 95% without condensing

#### WORKING TEMPERATURE

- 20°C ÷ +70°C

#### STORAGE TEMPERATURE

- 20°C ÷ +70°C

#### PACKAGE

1 Multipoint lock L 2300 mm, Door status magnet, lock fixing screws, installation manual.

#### ACCESSORIES (NOT INCLUDED)

- Connection Box (see operating and power configurations)
- Motor/Connection Box cable (see operating configurations)
- Flexible cable for rim and mortice mounting
- Battery pack
- Batteries
- Counterplates
- Magnet holder
- Emergency handle or panic bar
- Emergency mechanical cylinder
- Extensions

### Accessories

#### CONNECTION BOX

##### CONNECTION BOX FOR EXTERNAL 24VDC POWER SUPPLY, WITH BLUETOOTH®

Used in Multiblindo Smart configurations Powered by 24Vdc with Cable Free reader (PWF) and Powered by 24Vdc with Cable Free reader and output relay (PWF+R).

Package: 1 Connection Box, 1 cable, instruction manual.

1 7A0E110

##### CONNECTION BOX FOR EXTERNAL WIRED POWER SUPPLY, WITHOUT BLUETOOTH®

Used in Multiblindo Smart configurations Powered by 24Vdc with wired reader (PWW) and Powered by 24Vdc with wired reader and output relay (PWW+R).

Package: 1 Connection Box, 1 cable, instruction manual.

1 7A0E120

##### CONNECTION BOX FOR CONFIGURATION WITH BACKUP BATTERIES, WITH BLUETOOTH®

Used in Multiblindo Smart configurations Powered by 24Vdc with backup batteries and Cable Free reader (BKF), Powered by 24Vdc with backup batteries, Cable Free reader and Relay (BKF+R) and Full Battery (FB), version without external 24Vdc power supply.

Package: 1 Connection Box, 1 cable, instruction manual.

1 7A0E130

##### CONNECTION BOX FOR CONFIGURATION WITH BACKUP BATTERIES, WITHOUT BLUETOOTH®

Used in Multiblindo Smart configurations Powered by 24Vdc with backup batteries and wired reader (BKW) and Powered by 24Vdc with backup batteries, wired reader and output relay (BKW+R).

Package: 1 Connection Box, 1 cable, instruction manual.

1 7A0E140

## Multiblindo Smart

### Accessories

### CONNECTION CABLES AND BATTERIES

#### 6-WIRE CONNECTION CABLE FOR MULTIBLINDO SMART

Used in Multiblindo Smart configurations Powered by 24Vdc with wired reader (PWW) and Powered by 24Vdc with backup batteries with wired reader (BKW).

Package: 1 Connection Cable

1 7A0E200

#### 4-WIRE CONNECTION CABLE FOR MULTIBLINDO SMART

Used in Multiblindo Smart configurations Powered by 24Vdc with Cable Free reader (PWF) and Powered by 24Vdc with backup batteries with Cable Free reader (BKF).

Package: 1 Connection Cable

1 7A0E210

#### 6-WIRE CONNECTION CABLE FOR MULTIBLINDO SMART

Used in Multiblindo Smart configurations Powered by 24Vdc with Cable Free reader and output relay (PWF+R) and Powered by 24Vdc with backup batteries, Cable Free reader and output relay (BKF+R)

Package: 1 Connection Cable

1 7A0E220

#### 8-WIRE CONNECTION CABLE FOR MULTIBLINDO SMART

Used in Multiblindo Smart configurations Powered by 24Vdc with wired reader and output relay (PWF+R) and Powered by 24Vdc with backup batteries, wired reader and output relay (BKF+R)

Package: 1 Connection Cable

1 7A0E230

#### SINGLE BATTERY HOLDER + CONNECTION CABLE

Single battery holder in black nylon for 9 type AA batteries.  
Compatible with MULTIBLINDO SMART, supplied with connection cable. (batteries not provided).

Package: 1 Battery holder, 1 connection cable

1 7A0E300

#### DOUBLE BATTERY HOLDER + CONNECTION CABLES

Double battery holder in black nylon for 9x2 type AA batteries.  
Compatible with MULTIBLINDO SMART, supplied with connection cables.  
(batteries not provided).

Package: 2 Battery holder, 2 connection cable

1 7A0E310

#### PACKAGE 9 BATTERIES

Duracell Procell AA alkaline battery

1 7A0E320

# x1R Smart 2.0

[Go to page](#)

## Control for security doors

X1R SMART is a motorised electronic lock specifically designed for security doors. It combines the solidity of a mechanical lock with the versatility of electronic control via smartphone, RFID tag or keypad.

## Choose your preferred credential

The security doors equipped with x1R Smart lock offer to the user the possibility of accessing with the Argo app from a Smartphone and with RFID devices. It is also possible to have a numeric keypad and fingerprint reader on the door, to allow access to the user without having to use any physical credentials.

## Product's functions

- Opening via PIN code and finger print.
- Motorised opening and closing of deadbolts and latchbolt.
- Quick opening from inside the room with "Single Action" handle (optional).
- Opening via European profile cylinder (EN1303, DIN 18252).
- Light function (latch only) programmable by the user for certain days and time slots.
- Memorize up to 300 users credentials
- Records the last 1000 events
- Battery-operated device with charge status detection
- Wake up by RFID card detection or phone Bluetooth® (patented)
- Low energy consumption device
- Real Time Clock/Calendar
- Light and acoustic signals
- Permanently open mode (office mode) without no extra battery consumption
- Block the Standard Users allowing access only to VIP users
- Programming and software updates by Argo app on iOS and Android devices

# x1R Smart 2.0

## Selection guide

x1R Smart is a motorised electronic lock specially designed for application on armoured doors.

It combines the robustness of a mechanical lock with the versatility of electronic control via Smartphone, RFID tag or keypad.

### ORDER THE PRODUCT IN A FEW STEPS

**1**

Check the type and dimensions of the x1R Smart lock.

**2**

Choose the model of the x1R Smart in the column on the right.

**3**

Choose the **control module** and **accessories best** suited to your needs.

**4**

**Optional.**  
Choose accessories to complete the system.

## Control the system remotely

With Smart Gateway, the ARGO system by ISEO can be controlled remotely, in residential but also in 'light' commercial environments, such as shops, small offices, B&Bs, where the new smart devices generation for door locks it can simplify your daily life and make logistics easier.

## Connection security

The Argo 3.0 system guarantees a secure connection thanks to Bluetooth® Low Energy 5.1 and end-to-end encryption, which manages communication without an intermediate server.

## COLOR

## COMMUNICATION INTERFACE

- Conversion from WIFI data to Bluetooth®
- Dual Band WIFI at 2.4 GHz and 5 GHz
- USB type C

# Smart Gateway

## Selection guide

Smart Gateway connects the cloud platform (Argo account of ISEO) to the door lock. The device communicates with the cloud via the data connection and to the door lock via Bluetooth® Low Energy 5.1. Smart Gateway can manage all door locks within the Bluetooth® operating radius (approx. 10 metres, depending on environmental conditions).

The Smart Gateway is available in two versions to adapt to different installation requirements.

## ORDER THE PRODUCT IN A FEW STEPS

1

Choose the appropriate template for your application and click in the column on the right :

### WiFi Smart Gateway

Device used for installations where it is preferred to use the WiFi network to connect the system to the Internet (residential market).

### PoE Smart Gateway

To be used if the WiFi network is not present or has usage restrictions (tertiary/commercial market). The Ethernet connection can also be used as a power supply for the device (Power over Ethernet).

2

### Optional.
